

For over 30-years, Biologist Janie Veltkamp has treated thousands of injured birds of prey. She presents these birds of prey onsite at our BOPNW Raptor Center, and travels to schools, libraries, public events and professional conferences to educate people on the important role these raptors have on our ecosystem.

Janie works closely with local veterinarians, Idaho Department of Fish and Game, U.S. Fish and Wildlife Service and raptor rescuers from all over the country. Our BOPNW Raptor Center currently houses over 70-birds, many of which are non-releasable. Others are in the process of rehabilitation with hope they will return to healthy condition and be released back to their home environment.

The on-going success of our program is getting more costly every year. Feeding our birds alone costs over \$40,000 annually.

Join us for a unique golf experience and you will get to meet our Raptor Ambassadors. A rare and special opportunity to see a bald eagle, a golden eagle, and others, up close and in-person, take photographs with them, and enjoy a presentation by Janie and her raptors at the awards banquet.
